Model SF3RT-CH2

F3 & RT Large Cup Holder Kit

Steps needed to install your Cup Holder Kit!

1.- Remove the two 6mm factory screw on the underside of the control module.

Then take the preassembled cup holder as shown below and place the new 6mm Socket Head bolts w/ Spacer between the bracket and the factory module mount.

Tighten down bolt bolts and your cup holder are now installed. Can be installed on either side.

We thank you for purchasing one of our Spyder Extras Products. Today we know the needs for accessories that provide a higher level of comfort while riding and we have solved that demand with a stylish Products that complement the design of your Spyder!
