Installation Instructions 3-29-21

Model RYK-21EXT

Ryker Driver Backrest Extension Kit

Steps needed to install your Extension Kit.

1.- Follow the instructions for installing your Driver back rest. This spacer kit simply extends the driver backrest lower main bracket out from the driver's seat missing the rear plastic cap that is on the Rykers with driver seat only as shown below. The spacer has a smaller end that fits in the metal mount hole on the Ryker. You will see the two holes. This is not for models using the Max Mount.

We thank you for purchasing one of our Ryker Accessory kits. We know today the need for accessories that provide a higher level of comfort while riding and we have solved that demand with a stylish system that compliments the design of your Ryker!
